

RESOURCE

Study on the best administrative positioning of the regulatory body in the process of tariff setting of communal affairs of water supply and wastewater collection and treatment services

|

Description / Abstract

The GoAL WaSH programme has in cooperation with the state, entity, cantonal and local authorities, prepared a study on establishing a regulatory framework for tariff setting for water supply and sewerage services in Bosnia and Herzegovina. The study includes an analysis of the legislative and institutional framework, as well as of the current practice in tariff setting and approval in Bosnia and Herzegovina. The document concludes with guidelines, principles and proposals for the establishment of a regulatory framework in this area.
