Ten actions for financing water infrastructure

|

Author(s)

Money, Alex

Description / Abstract

“Ten Actions for Financing Infrastructure” identifies a set of actions to help bridge the financing gap for water infrastructure. The report highlights the innovative operational and practical functions that can contribute to lowering the barriers that remain despite an apparent abundance of capital. It acknowledges the complexity of challenges and the progress that is already being made in various forms.

The ten recommendations build upon existing initiatives that engage both the public and private sectors.
