Multi-Stakeholder Partnership for the Hindon Rejuvenation: Sharing Insights from the Experience of Establishing a Basin-Level MSP for River Rejuvenation in India

Description / Abstract

The Hindon Multi-Stakeholder Partnership (MSP) is a collaborative platform coordinated by the 2030 Water Resources Group (2030 WRG) and the India Water Partnership which aims to rejuvenate the Hindon river, a tributary Yamuna River of Ganga river basin. This publication describes the evolution and progress of the Hindon MSP, including its various initiatives and collaborative efforts to restore the Hindon river. The experience from the Hindon MSP provides great inspiration, insights, and lessons learned in terms of improving water governance at basin-level through a multi-stakeholder based approach.
