

RESOURCE

Gender Analysis and Mainstreaming in International Waters Projects: Introduction to the IW Webinar Series

|

Description / Abstract

The webinar intends to explain and discuss the relevance of the 'gender issue', and discuss how newly developed gender & water analytical tools can be applied in project cycle (special focus on GEF IW Projects) to improve its effectiveness. It explains the objectives and activities of the gender IW:LEARN component and the overall concept on gender (mainstreaming) and women's empowerment. It also focuses on how this can enhance the effectiveness of projects and strengthen the basis for water cooperation.
