# Valuing Lake Orchid

|

## Description / Abstract

*The Valuation of Ecosystem Services of Lake Ohrid was one of the key inputs informing the development of the Lake Ohrid Watershed Management Plan, which has now been approved by the responsible authorities of Albania and North Macedonia. The Lake Ohrid Watershed Management Plan is the second transboundary management plan in accordance to the EU Water Framework Directive developed in South East Europe. Its Programme of Measures includes more than 100 measures that will prevent further deterioration of water resources and ecosystems, promote sustainable water use, improve water resource and ecosystems quality, and contribute to the mitigation of floods and droughts in the area are included. The Management Plan is prepared to be the official instrument of cooperation between Albania and North Macedonia for the management of Lake Ohrid.*
