RESOURCE

Violence, Gender & WASH: A Practitioner’s Toolkit

Author(s)
Cavill, Sue

Description / Abstract
This toolkit has been developed in response to an acknowledgement that although the lack of access to appropriate water, sanitation and hygiene services (WASH) is not the root cause of violence, it can lead to increased vulnerabilities to violence of varying forms. Incidences have been reported from a wide range of contexts, often anecdotally but with regular occurrence, with a number of targeted studies confirming the same.
