# Applying Environmental Assessment For Flood Management - A Tool for Integrated Flood Management

|

## **Description / Abstract**

This tool provides flood management practitioners a generic approach for integrating environmental considerations into the decision-making processes in basin flood management on project as well as strategic levels. As such, it provides generic approaches for conducting Strategic Environmental Assessments (SEA) at the basin flood management planning stage and Environmental Impact Assessments (EIA) at the project design and implementation stage.

## **Publication year**

2013

## **Publisher**

Global Water Partnership - GWP World Meteorological Organization - WMO

## **Keywords**

Integrated Flood Management
